Curriculum Vitae

Name: Björn Mikael Blomquist
Adress: Härbrevägen 21
14234 Skogås
bjorn.blomquist@gmail.com
Webb: www.bjornblomquist.com
Date of Birth: 1987-06-12

Current occupation:

Management

- I'm currently working as a project manager at Swedmedia. A Stockholm based company working with media and online solutions. I've been working here since October 2009.

URL: <http://www.swedmedia.se>

Fitness

- I'm a group fitness instructor, teaching classes at Sportlife, Stockholm. I started to teach fitness classes early spring 2005 and just love it. I'm a licensed Les Mills Bodypump and Bodycombat instructor. I do also teach Box, Kinesis, Core, Circle training.

I'm also educated in lifesaving, and athletic medicine, and run my own company as a side business where I do offer myself as a consultant within personal training, nutrition and group fitness.

Working life experience:

20090701 - 20091001

After graduation from Hyper Island (see educations below) I've worked a couple of months as a membership advisor at Flex Sports Club, Stockholm.

20070630 - 20080101

I work on contract basis as a consultant for Albin Metals AB (stock listed) and SGV Industrier AB, concerning development and administration of their websites.

June 2006 - June 2007

I worked as at SGV Industrier.

The key processes of this company are hot stamping, die casting, machining, and automatic turning of parts made from brass, aluminum, steel and copper targeted for European automotive industry.

During my employment I have had various assignments. I started in direct production and then was given the opportunity to develop myself in other areas. I was part of a project aiming to reduce and streamline the flow of inventory and worked about 4 months with internal logistics and material handling. During this period I also got a license for fork lift driving and heavy transports.

Next opportunity then came as we successfully completed our task. The company went public through a small cap list in Gothenburg and I was asked to take full responsibility for developing the webpage's concerning the new stock listed company as well as renew all information in my current company. The results was more than satisfying for my employer and also helped me to come to the conclusion that I should educate myself in this area, because I came to the insight that I really enjoyed doing this and wanted to do this for a living.

Education:

College, Project Manager

2007-2009

Hyper Island, School of Digital Media. It's a two years long work-preparing education where I intended to improve my skills within project management and design. The school works with a "learning-by-doing" system which means that the school don't have any teachers, classes or tests, but only project based cases taken forth by the business.

I was also the Chairman of the student organization between September 2007 and September 2008.

Url: <http://www.hyperisland.se>

High School

2003-2006

I graduated from the Technical program at the Lars Kagg, Secondary School, Kalmar, with focus on Virtual Design.

I was also a board member of the student organization for 1 year.

Driver license:

I have a driver license since January 2006.

About me:

I'm a happy, open minded and very creative person who likes to work together with people. I have good management skills and often take the initiative. I'm not afraid of hard work or long working hours.

As a person I enjoy when there are expectations and demands on me, combined with a lot of projects going on at the same time, both individual work and work together with colleagues and external parties. This give me a chance to develop and I see it as education, which is important for my satisfaction and make me feel good as a person.

Language:

I am a native Swede.

I am fluent in English, both writing and speaking.

I have a weak German that can be refreshed.

I look forward to a personal meeting and a hope that my profile have created an interest in me.
